## RECEIVE ENERGY UPGRADES FOR YOUR SMALL BUSINESS

*For gas stations, which operate around the clock, energy efficiency upgrades can significantly lower operating costs.*

Meet Niral Patel who has owned and operated NK Gas since 2017. Located in the heart of Antioch between Highway 4 and the Delta Waterfront, NK Gas serves as an important resource for many commuters.

Through the **BayREN Business** program, Niral found an opportunity to cut energy costs by upgrading the overhead and refrigeration unit lighting to more energy-efficient LED lighting, at no cost to the business.

Now, NK Gas uses less energy, and Niral has reduced his business' energy costs by over \$2,000 annually. Plus, NK Gas has brighter lights for its customers!

### BENEFITS

**\$10,698 BayREN rebates** made the upgrade free of charge

**\$2,246** in annual electricity savings for NK Gas.

"I am very happy with the results. The process was surprisingly fast, my business has better and brighter lighting, and the costs were covered entirely by BayREN."

**- Niral Patel | Owner, NK Gas**

Project costs, incentives, and out-of-pocket expenses vary by business and equipment upgrades.
