

BAYREN

SAVE MONEY WITH BAYREN BUSINESS

The soaring costs of electricity has many small businesses looking for ways to immediately cut costs.

Meet Sami Hatter, the manager of Oak Hill Market. Nestled in the heart of San Francisco's Lower Haight neighborhood, Oak Hill Market has been proudly family-owned and operated for more than two decades.

Sami saw an opportunity to cut costs by taking advantage of **BayREN Business**. The Program provided incentives to cover the entire project cost of \$10,000. And "the whole process was extremely easy."

Now, Oak Hill Market is on its way to saving an estimated \$5,000 per year on its electricity bill. Plus, the store has brighter lights and quieter refrigerators too.

"The lighting in the store is much better and brighter, the refrigerator makes less noise, and the whole process was extremely easy!"

- Sami Hatter | Manager, Oak Hill Market

BENEFITS

\$10,000 BayREN rebates made the upgrade free of charge

\$5,000 in annual electricity savings for Oak Hill Market

Project costs, incentives, and out-of-pocket expenses vary by business and equipment upgrades.
