Rebate Catalog

January 2026
Version 1.0

Terms and Conditions

1. To be eligible for a rebate in accordance with this application, I must be a customer of a qualifying investor-owned utility (PG&E, SCE, SDG&E, SoCalGas) with an active meter and be installing a qualified product(s). All references to the term "install, installation or similar phrases" shall mean that the product is completely installed and is entirely functional and operational.
2. I understand for each product installed the requirement is to identify each Service ID# (or meter number) on the "Rebate Product Information." I also agree to provide the Servicing IOU with 100 percent of the energy savings for the rated life of the product(s) or for a period of five years from receipt of rebate, whichever is less. If I do not provide the energy savings or if I cease to be a customer of the Servicing IOU during the five years, I shall refund a prorated amount of rebate dollars based on the time installed.
3. I understand the rebate is determined by the date the application is received. I understand in order to receive a rebate, I must submit (postmark or submit online) my application within 60 Days from purchase date, installation date, or account establishment date (SAID/Meter activated) whichever is latest. Products purchased and installed in adherence to these terms are eligible for a rebate, provided rebate funding is still available. Funding is available on a first-come, first-served basis.
4. Rebate offerings and rebate amounts may change without notice during the Term. Resale products, rebuilt, rented or leased less than five years, received from warranty or insurance claims, exchanged, won as a prize, or new parts installed in existing products, do not qualify for any rebate. The terms and the application requirements may be modified or terminated without prior notice. Complete applications must be postmarked and received by SOC ESS Staff within **60 Days** from installation date, purchase date, or account establishment date (SAID/Meter activated), whichever is later.
5. I understand only complete applications can be processed for rebates. Failure to submit a complete application may result in delay or rejection of a filed application. Complete applications must include all required application information, a signature, proof(s) of purchase and other required documentation for all products as referenced in this application. Original applications will become the property of AESC and PG&E. AESC and PG&E are not responsible for items lost or destroyed in transit through the mail or electronic medium.
